The Operation Impact of Continuous Deployment
DevOps
(a quick refresher)
CONTINUOUS DEPLOYMENTS
Nirvana here we come!

- Letting go
Nirvana here we come!

- Letting go
- Security!
Nirvana here we come!

- Letting go
- Security!
- Regaining control
Regaining Control

- Leadership
- Policy
- Tools
- Withholding unicorns
Regaining Control

- Leadership
- Complete buy-in is required!
Regaining Control

• Policy
• Documentation
• Operability reviews
• Oversight of production
• Risk assessments
Regaining Control

- **Tools**
  - Metrics: Ganglia, Graphite, FITB, Munin
  - Monitoring: Nagios, Zenoss, Zabbix
  - Audit logs
  - Postmortem meetings

RECAP

• Let developers have their way
• ..but really stay in control!
• Beer: a great catalyst for (positive) change
New cap!

Old Cap!
Deployinator: Being Stupid, to be Smart
