

Welcome to WebApps' 11

Armando Fox, UC Berkeley
(Program Chair)

- Showcase most interesting new research in
 - Web applications
 - technologies to support Web applications
 - both client and server side work
- Bring together academics and industry/R&D practitioners working in these areas
 - Program committee: 5 academics, 3 industrial researchers, 5 from Web 2.0 companies
- Launched just last year

- 29 submissions, 12 in proceedings = 41%
 - 9 from academia
 - 2 joint industry/academic authors
 - 1 industry-only authors (3 authors from 3 different companies!)
- Geographic distribution
 - 8 from U.S. institutions
 - 2 from European institutions
 - 1 collaboration between Asian/European institutions

- Server-side security
- Client-side security & extensibility
- Researcher's workbench
- Lessons & experience from application deployment

- Matthew Faulkner & Michael Olson, Caltech
- Mobile+Cloud apps for earthquake detection & rural healthcare
- **Today** at 4:45 PM (joint with USENIX ATC)

- Finn Brunton, NYU
- What can “dead” media formats tell us about the future of technological communication?
- **Tomorrow** at 9 AM

Panel on Client-Side Web App Architecture

Patrick
Chanezon,
Google

Raffi
Krikorian,
Twitter

Erik
Meijer,
Microsoft

Charles
Ying,
Flipboard

- Joint session with USENIX ATC
- Posters from additional WebApps submissions and USENIX ATC authors
- Hors d'oeuvres and happy hour
- **Today 6:30 PM**

Kent Beck

- Inventor of Extreme Programming (XP)
- Creator of Test-Driven Development (TDD) and JUnit
- **Speaking tomorrow 3pm:**
“Software G-Forces”

Thanks: Program Committee

Adam Barth, **Google**

Abdur Chowdhury, **Twitter**

Armando Fox, UC
Berkeley

Jon Howell, **Microsoft**

Collin Jackson, CMU
Silicon Valley

Bobby Johnson, **Facebook**

Emre Kiciman, **Microsoft
Research**

Owen O'Malley, **Yahoo!
Research**

John Ousterhout, Stanford
University

Michael E. "Max" Maximilien,
IBM Research

Swami Sivasubramanian,
Amazon Web Services

Geoffrey M. Voelker, UCSD

Nickolai Zeldovich, MIT

Thanks: Corporate Sponsors

The Google logo, consisting of the word "Google" in its signature multi-colored font (blue, red, yellow, blue, green, red) with a trademark symbol (TM) to the right.

The Facebook logo, which is the word "facebook" in a white, lowercase, sans-serif font centered within a dark blue rectangular box.
