VNC Manager

Wout Mertens -
wmertens@cisco.com

What is VNC Manager

- Light-weight software thin client
  - Wraps VNC over ssh
  - User can create multiple sessions
  - Enterprise friendly
  - Loadsharing across user systems
  - Uses Perl + Tk (optional)
- Can run on any unix
- Special attention to server-side Solaris

But wait, there's more!

- 32MB linux image
  - Based on Gentoo
  - Can use USB to authenticate
  - Netboot, cd, flash, whatever
 - Not updated for a while now

Live Demo

Current state

- It works
- It's not very clean
- http://sf.net/projects/vncmgr
  - Old version, bug me
